The scheme aims to provide a mechanism to bring together farmers, processors and retailers and link agricultural production to the market so as to ensure maximization of value addition, minimization of wastages and improving farmers' income. The primary objective of the scheme is to facilitate establishment of an integrated value chain, with processing at the core and supported by requisite backward and forward linkages. The scheme intends to incentivise the private sector investment in creating food processing infrastructure in a big way. Accordingly, the Scheme envisages financial assistance in the

form of grant-in-aid upto 50% of the project cost in general areas and upto 75% of the project cost in special category States subject to a maximum of Rs. 50.00 crore or the cost of approved facilities, whichever is lower, for all implementing agencies including private sector.
